

Reactome enrichment results

Immunoregulatory interactions between a Lymphoid and a non-Lymphoid cell

Regulation of Insulin-like Growth Factor (IGF) transport and uptake by Insulin-like Growth Factor Binding Proteins (IGFBPs)

Post-translational protein phosphorylation

TNFs bind their physiological receptors

Extracellular matrix organization

Neutrophil degranulation

Interleukin-10 signaling

TNFR2 non-canonical NF-kB pathway

Signaling by Interleukins

Degradation of the extracellular matrix

Chemokine receptors bind chemokines

Integrin cell surface interactions

Interleukin-4 and Interleukin-13 signaling

Cell surface interactions at the vascular wall

Endosomal/Vacuolar pathway

Molecules associated with elastic fibres

Attachment and Entry

Peptide ligand-binding receptors

Collagen degradation

Elastic fibre formation
